PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience in designing and developing modern, responsive, and scalable web applications using JavaScript (ES6+), React.js, Next.js, Node.js, Express.js, MongoDB, and MySQL. Strong understanding of frontend and backend architecture, RESTful API development, database management, and responsive UI implementation with Tailwind CSS and Bootstrap. Experienced with Git/GitHub, Vercel, Postman, VS Code, and modern development practices to build clean, maintainable, and performance-focused applications. Familiar with WordPress, eCommerce development, and UI design tools including Figma and Canva. Committed to writing high-quality code, continuously expanding technical expertise, and contributing effectively to collaborative software development teams

Skills

Programming Languages: JavaScript (ES6+), Node.js, Python, HTML, CSS, C++ (foundational)

Frameworks & Libraries:

Frontend Frameworks: Express.js, Next.js, Astro.js, React.js (Hooks, Context API, SPA design), Redux Toolkit

Styling: Tailwind CSS, Bootstrap, Responsive/Semantic CSS

Design Tools: Figma, Canva

APIs & Data: REST API Integration, JSON, Postman, Custom React Hooks

Tools: Git/GitHub, Vite, VS Code, Chrome DevTools, Vercel

Database: MongoDB, MySQL,

Projects

Personal Portfolio Website

[Live Demo](#) | [GitHub](#)

React.js, Vite, Tailwind CSS v4, Motion (motion/react), React Icons, Responsive Design

- Developed a fully responsive single-page portfolio using React, Vite, and Tailwind CSS with reusable components, smooth animations. Deployed an optimized, scalable application following modern frontend development practices.

Meo Studio (React-based frontend project)

[Live Demo](#) | [GitHub](#)

JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router, Framer Motion, Vite, Figma, Responsive

- Developed a modern, responsive website using React.js, Vite, and Tailwind CSS with reusable components, client-side routing, and interactive animations. Optimized performance, scalable code following modern frontend best practices.

Hansi SaaS Landing Page

[Live Demo](#) | [GitHub](#)

Astro.js, TypeScript, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+), AOS (Animate On Scroll)

- Developed a fully responsive SaaS landing page using Astro.js, TypeScript, and Tailwind CSS with reusable components, smooth animations, and SEO-optimized architecture. Deployed the production-ready application on Vercel.

Quiz App (Frontend Web Application)

[Live Demo](#) | [GitHub](#)

TypeScript, Vite, Tailwind CSS, Framer Motion, Zustand, React Router, LocalStorage

- Developed a responsive quiz platform using React with 100+ questions across multiple categories, featuring timer-based quizzes, scoring, and difficulty levels. Implemented dark/light themes, localStorage, and an interactive user interface.

GTM Sales Development Platform (B2B Marketing Website)

[Live Demo](#) | [GitHub](#)

HTML5, CSS3, JavaScript, React.js, React Router, Vite, Responsive Design.

- Developed a responsive B2B sales website using React, Vite, and React Router with reusable components, service pages, and conversion-focused user interfaces. Optimized performance and deployed the production-ready application on Vercel.

Work Experience

Freelance client Santosh MouRya

(Remote)

Web Developer

02/05/2026 - 04/10/2026

Technologies: Astro.js, TypeScript, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+), AOS (Animate On Scroll), Git/GitHub, Vercel.

Responsibilities:

- Developed a modern, fully responsive SaaS landing page using Astro.js, TypeScript, and Tailwind CSS, following a component-based architecture for maintainable and scalable development.
- Built reusable UI components including hero, features, pricing, testimonials, FAQ, and contact sections with a clean, semantic code structure.
- Implemented smooth scroll animations and interactive user experiences using AOS, ensuring cross-browser compatibility and mobile responsiveness.
- Optimized website performance, accessibility, and SEO through efficient asset management, semantic HTML, and responsive design best practices.
- Managed source code with Git/GitHub and deployed the production-ready application on Vercel, following modern frontend development workflows.

Freelance client Muhammad Mostofa

(Remote)

Frontend Developer

05/17/2026 - 06/19/2026

Technologies: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router, Framer Motion, Vite, Git/GitHub, Figma, Responsive Web Design

Responsibilities:

- Developed a modern, responsive website using React.js, Vite, and Tailwind CSS, following a reusable component-based architecture for scalable frontend development.
- Converted Figma-inspired UI designs into pixel-perfect, responsive web pages with a strong focus on accessibility, performance, and cross-browser compatibility.
- Implemented client-side routing with React Router, interactive animations using Framer Motion, and reusable UI components to enhance user experience.
- Optimized application performance through clean code organization, responsive layouts, and modern frontend development best practices.
- Managed source code using Git/GitHub and collaborated through structured version control workflows while deploying production-ready builds.

Education

Gomal University, Dera Ismail Khan

BSc in Computer Science

Certification

Programming With JavaScript — Meta, 2024

Professional Frontend Developer — freeCodeCamp, 2024
